Dear Ms. Delfino,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. Your email will become a part of ND-2015-20-E - Duke Energy Carolinas: Foothills Transmission and Substation Project- 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC, and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Coordinator

Subject:

Dear Ms. Boyd,

Please help us stop Duke Energy from putting transmission towers/lines in Mills River. Line 12 of the proposed Duke Energy transmission line will effect homeowners in:

Mills Pointe Subdivision
Ravenwood Subdivision
High Vista Subdivision
Hollabrook Farms Subdivision
Cummings Cove Subdivision

As homeowners we do not want this line and are organizing against it.

It would be more sensible for Duke to use the I-26 corridor where they already have the right of way. Also, would you persuade them to announce as soon as possible any routes that are not feasible so that homeowners on those lines can once again sleep at night?

Thank you for your help.

Sincerely,

Karen Delfino
